Falls

THE GUARDIAN SOLUTION

The Guardian Monitor is our most advanced system and can be applied in some of the most demanding situations when supporting tonic/clonic seizures and SUDEP

Solution Product Code **S1020B**

£680

INCLUDES PLESIO PAGER

THE COMPANION SOLUTION

The Companion Monitor is an effective solution for supporting tonic/clonic seizures as well as a variety of other situations resulting in movement, sound, vomiting or incontinence.

Solution Product Code **S1026C**

Movement and Sound associated seizures.

£390

INCLUDES PLESIO PAGER & MICROPHONE

Solution Product Code **S1026D**

Movement and vomiting or incontinence associated seizures.

£500

INCLUDES PLESIO PAGER & 2X COTTON SHEETS

THE COMPANION MINI SOLUTION

The Companion Mini, currently the smallest monitor of its kind on the market. The digital movement sensor is our most discrete system yet and can be applied in some of the most challenging situations when supporting tonic-clonic seizures. Very simple to install and operate.

Solution Product Code **S1043A**

£220

INCLUDES PLESIO PAGER

THE CALL BUTTON SOLUTION

The call button can be worn on the wrist or round the neck on a lanyard quick release. It has a large easy press coloured button with audio able and visual reassurance when pressed. Alerts a pager with a range of up to 400 metres.

Solution Product Code **S1032BB**

£165

INCLUDES PLESIO PAGER

The Call/Fall badge is worn around the neck or pinned to the clothing of the upper body. Operates similar to the call badge with the added feature of detecting the wearer may have fallen.

Solution Product Code **S1032AB**

£185

INCLUDES PLESIO PAGER

THE BED OCCUPANCY SOLUTION

A bed occupancy solution detects the person leaving the bed and raises an alarm to the Plesio pager. A unique feature, if the user returns to the bed themselves the alarm will reset automatically highlighting the person is safe. Supplied with a large bed mat to minimize false alarms.

Solution Product Code **S1034B**

£220

INCLUDES PLESIO PAGER

THE CHAIR OCCUPANCY SOLUTION

A chair occupancy solution detects the person leaving the chair and raises an alarm to the Plesio pager. A unique feature, if the user returns to the chair the alarm will reset automatically highlighting the person is safe. Supplied with a large chair mat to minimize false alarms.

Solution Product Code **S1034E**

£243

INCLUDES PLESIO PAGER

THE FLOOR MAT SOLUTION

Our floor mats are robust low-slip mats that do not need over mats for protection or safety. Once the mat is stepped on an alarm is raised to the Plesio pager. The detector unit also has a call button that the user can use as a basic call system.

Solution Product Code **S1034A**

£280

INCLUDES PLESIO PAGER

THE DOOR ACTIVITY SOLUTION

The door activity sensor offers many unique features, not only will it alarm the Plesio pager if the door has been opened, but it can be temporarily disarmed while the carer is at the door with automatic re-arming when the door is closed. The unit can only be disabled with a secure key.

Product Solution Code **S1036C**

£185

INCLUDES PLESIO PAGER

THE DISCREET DETECTION SOLUTION

A discreet detection unit with an infra-red motion detector remote from the bed. The alarm is raised as soon as the user's foot descends to the floor. The same sensor can be positioned to detect them sitting up, leaving a room, or entering a hazardous area. It can also detect door usage, where a door may be left open. It's an alternative to the door sensor and floor mats which can be a trip hazard.

Product Solution Code **S1036B**

£188

INCLUDES PLESIO PAGER

THE COMPLETE SOLUTION

A complete solution which bring together the door sensors and infra-red motion detector. The solution consists of 2x Door, 1x Infra-red motion sensor and our 8 monitor pager which offer a descriptive location and type of device which has been activated. An idea solution to offer independence for the user and peace of mind for the carer.

Product Solution Code **S1036A**

£350

INCLUDES PLESIO PAGER

Every solution comes with complete peace of mind...
